Distribution of information by a community group in accordance with District 97 policy does not imply, directly or indirectly, that the group's program(s), event(s) and/or services is sanctioned, sponsored or endorsed by the district, the Board of Education or the superintendent.

## Chinese

By Hai-Tao Huang

**WED | Grades 1—5 \$154**

In Chinese class we work on speaking, listening, reading and writing mandarin Chinese. To actively engage students with the language I use activities, drawing and songs. Character writing is a critical part of our work along with using vocabulary in conversation.

## Coding and Game Design

By Kids STEM Studio

**MON | Grades 2—5 \$226**

Learn to code using Tynker's own visual programming language, featuring visual drag-n-drop logic blocks that eliminate the need to understand programming syntax. Young learners learn to program their own games and apps using extensive media gallery and physics engine.

## Dynamic Chess

**WED | Grades K—1 \$160**

Your child will be given a solid foundation in the basics of chess and more advanced concepts based on their starting level. All playing levels are welcome, including absolute beginners! Beginners and more experienced players will be separated into different groups. The class will focus in all areas of the opening, middlegame, and endgame. The class will also cover famous chess games, numerous checkmate patterns, and how to improve chess calculation and visualization.

## Dynamic Chess

**WED | 2—5 \$160**

Your child will be given a solid foundation in the basics of chess and more advanced concepts based on their starting level. All playing levels are welcome, including absolute beginners! Beginners and more experienced players will be separated into different groups. The class will focus in all areas of the opening, middlegame, and endgame. The class will also cover famous chess games, numerous checkmate patterns, and how to improve chess calculation and visualization. The 2—5 class will move at a faster pace than the K-1 class!

## Extreme Team Sports

By Legacy Sports Camp

**FRI | Grades K—3 \$157**

Calling all team players! This new Legacy program emphasizes the importance of teamwork in a number of different fun games, sports and activities such as soccer, capture the flag, and Legacy favorites including Hand Hockey, bombardment & many more. Not only will students participate in these action-packed games, they will also discover the value of cooperation in a dynamic and challenging setting.

## French

By Christine Baissac

**MON | 3—5 \$150**

Sing, speak and play! Native-speaking teacher (from France). Writing is only introduced once the words are mastered orally, to avoid written influence in pronunciation. A cultural exchange with a school in "Bretagne" to make French "real". Students will chose a project that we will video record and send to the school, and vice versa!

## Jedi Engineering with LEGO materials

By Play-Well TEKnologies

**THU | Grades K—2 \$214**

The Force Awakens in this introductory engineering course for young Jedi! Explore engineering principles by designing and building projects using LEGO® materials such as X-Wings, R2 Units, Energy Catapults, Defense Turrets, and Settlements from a galaxy far, far away. Create motorized and architectural projects with imagination and engineering to defeat the Empire! **Class dismissal at 4:40 pm.**

## Sticky Fingers Cooking

**TUE | Grades K—5 \$217**

Let your child release their inner chef! Students will prepare and eat healthy, globally inspired recipes all while learning to cook in a fun, engaging and real-world way! We will cover terminology, ingredients and fun nutrition facts (even a few bad jokes!) We will practice measurements, use a wide array of cooking utensils all while preparing the freshest ingredients. Full recipes will be created each class with our AWESOME master chef Sticky Fingers Cooking instructors.

## Taekwondo

By Flying V Martial Arts

**TUE | Grades K—5 \$114**

Our Taekwondo classes offers a total fitness program integrating mind, body and spirit. The program focuses on improving not only basic motor skills, but developing students' confidence, self-esteem, discipline, respect and focus. Furthermore, our program consists of a balanced cardiovascular workout, including punching, kicking, and blocking skills while using self-control and the Taekwondo tradition. Participants will improve coordination, power of concentration, balance, and both physical and mental discipline. The program will encourage students' sense of commitment and persistence in the face of challenges while helping them enter society with a more confident and enthusiastic outlook.

## YogaKids

By YogaKids of Oak Park

**THU | Grades K—5 \$151**

Kim has studied a variety of yoga styles for over 20 years. She is a Certified YogaKids Teacher (CYKT). YogaKids is based on Howard Gardener's Multiple Intelligence Theory. In every class, music, stories and cooperative activities insure that each child is engaged and confident. Age-appropriate breathing techniques both calm and energize. Yoga poses strengthen and stretch the body. Verbal directions and movement that crosses the body's mid-line create new brain pathways to learning and concentration. Since yoga is a non-competitive activity, self-esteem is naturally fostered. Both boys and girls enjoy fun, friendship and focus each week.
