

...the educational prism through which students realize meaning and purpose in their lives...

Constance R. Collins, Ph.D.
Superintendent of Schools

September 14, 2009

Dear Julian Middle School Staff:

I would like to take this opportunity to congratulate you for your success on the 2009 Illinois Standards Achievement Test. This commendation comes at a time when the bar for meeting/exceeding was raised even further during the 2008-09 school year.

The success of your students is a direct reflection of the teaching, modeling and mentoring by each of you and you should be proud of your excellent achievement. Our students and parents are also to be commended for their hard work and focus on academic excellence.

Keep up the great work and we wish you an exciting and achievement-filled year!

Working on behalf of the children,

Constance R. Collins, Ph.D.
Superintendent
