

... the educational prism through which students realize meaning and purpose in their lives ...

Constance R. Collins, Ph.D.
Superintendent of Schools

May 15, 2008

/;

Dear Families:

Each year, we spend considerable time reviewing all aspects of student fees and charges. Given the economic times and consideration of our parents and students, the District 97 Board of Education is not increasing any student fees or charges.

Collecting fees and charges is a necessary component for maintaining the educational programs we have in place for your students. Timely Payment is most greatly appreciated.

If you have any questions regarding fees and charges, please contact your child's school or the Business Office at 708.524.7625.

Working on behalf of the children,

Constance R. Collins, Ph.D.
Superintendent
Oak Park District 97
