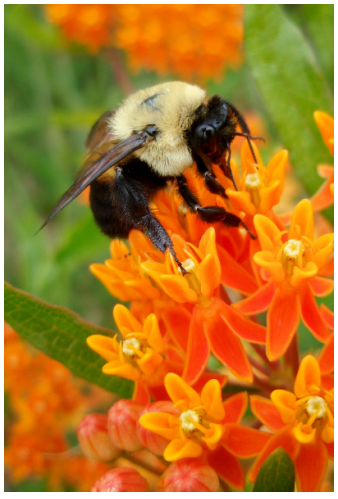
Support your PTO & Help the Monarchs & Bees in your Garden!

The **Easy Garden Kits** from West Cook Wild Ones (WCWO) will let you create a garden that attracts Monarchs and other butterflies and provides food for native bees and many wonderful creatures.

Go to http://tinyurl.com/wcwo2018 to pre-order kits and other native plants **by May 20.**

WCWO will donate **$8** for each kit purchased to Whittier PTO. Plant **pick-up** is Sat. **JUNE 2**, 10am-2pm in the Euclid Methodist Church parking lot, 405 S Euclid in Oak Park. More plants and kits will be for sale that day.

Each kit contains 10 plants. Monarch Garden Kit costs **$35**, and the **Sunny Save-A-Bee** and **Shade** kits cost **$40**, which is less than plants purchased separately. They provide all that Monarch caterpillars and adults, and bees and others need to grow up happily. See the website for plant photos and growing tips and to buy other plants too.



HOW does it work? Add a kit to your online cart on the website. Click on Cart, then put the name of your school in the box at lower left. After June 2, the schools will get $8 per kit. Open to parents, neighbors, or anyone! Contact westcook@outlook.com with questions.

WCWO is a local non-profit promoting ecologically friendly landscaping and environmental education.
