Balanced budget; no Deficit Reduction Plan is required.

A deficit reduction plan is required if the local board of education adopts (or amends) the 2023-2024 school district budget in which the "operating funds" listed above result in direct revenues (line 9, BudgetSum 2-4) being less than direct expenditures (line 19, BudgetSum 2-4) by an amount equal to or greater than one-third (1/3) of the ending fund balance (line 81, BudgetSum 2-4).

Note: The balance is determined using only the four funds listed above. That is, if the estimated ending fund balance is less than three times the deficit spending, the district must adopt and file with ISBE a deficit reduction plan to balance the shortfall within three years.

Per School Code (105 ILCS 5/17-1) - If the Deficit AFR Summary Information tab from the 2022-2023 Annual Financial Report (AFR) reflects a deficit as defined above, then the school district shall adopt and submit a deficit reduction plan (found here on page 23-27) to ISBE within 30 days after acceptance of the AFR.

The deficit reduction plan, if required, is developed using ISBE guidelines and format.

Evidence-Based Funding: Fiscal Year 2024 Spending Plan

OAK PARK ELEM SCHOOL DIST 97

Part I: Achieving Student Growth and Making Progress Toward State Education Goals

The questions below allow you to indicate the strategic priorities and strategies that will drive your efforts to achieve student growth and make progress toward state education goals. These may involve investing in any combination of an Organizational Unit's core resources: time, money, people, and programs.

Collaboration Opportunity - Organizational Units may find that Part I is most easily and effectively completed if led by program leaders in consultation with finance leaders.

1) What are the Organizational Unit's strategic goals for student success for the 2023-24 school year? What measures will be used to evaluate progress? (No more than 2000 characters, including spaces.)

The goals and vision for student success for the 2023-24 school year are through competency-based learning innovations. We will track measurable outcomes aligned to our Portrait of an Oak Park 8th Grade Graduate. We reallocated resources and restructured teams (Universal Design for Learning) to improve instruction to align with the goals and visions of our Portrait of an Oak Park 8th Grade Graduate. We are supporting building leadership teams to develop school improvement logic models with a focus on competency-based learning strategies and generating expert learners who have voice and choice in their classrooms. We are also focused on multilingual early childhood education and out of school time for competency-based learning. Finally, we have started the planning phase for youth development experiences.

	If "Other" was selected in question 2, please describe. (<i>No more than 1000 characters, including spaces</i> .)			

Part II: Planned Use of Evidence-Based Funding

The questions below provide an opportunity to document the stakeholders with whom you consulted and the data you analyzed as you determined your strategic allocations of FY 2024 EBF dollars. Key statistics related to EBF distributions are provided for your reference. Form 50-36/50-39 is typically released before current-year appropriations are known. Therefore, the figures provided are for the prior fiscal year.

Collaboration Opportunity - Organizational Units may find that questions in this section are most easily and effectively completed if led by finance leaders in consultation with program leaders.

Part III: Support for Special Student Groups

EBF statute sets aside specific allocations to be spent for special education, English learners, and low-income students. Per statue these designated funds must be spent on programs and services benefiting these specific student groups. Funds for English learners and lowincome students must be spent in addition to, and not in lieu of, funding that supports general programs of instruction for all students. Funds attributable to special education of special education facilities and services as outlined in ILCS 14-1.08. Current-year EBF amounts attributable to each of the special student groups must be reported in cells G100-G102 below. If the Organizational Unit received at least \$5,000 for any of the student groups, a response to the questions below is required. For amounts less than \$5,000, a response is optional. All other EBF funds may be spent in any manner deemed appropriate by the school district.

Collaboration Opportunity - Organizational Units may find that questions in this section are most easily and effectively completed through collaboration between program leaders affiliated with each student group and finance leaders.
