

Programs in October 2023

Studio A Open Hours **10/4 & 10/18 @ 1-5PM**

Patrons ages 14+ can come and work on self-directed projects using Studio A space & resources. Children ages 13 and under may use the Creative Studio and work on projects together with an adult (18+) caregiver. Work spaces & materials are allocated on a first come, first served basis.

TechGirlz: What's Inside a Computer?

 **10/5 @ 4-6PM**

Interested in exploring what's inside a computer? Find out what's inside a computer by taking one apart—all you really need is a computer and a few tools! We'll provide the tools and the computer, and you get to have fun exploring!

Tech Night for Kids: **2-part series: 10/10 & 10/12 @ 5:30-7PM**

Come explore 3D-design! You'll learn how to manipulate 3D shapes by moving, scaling, rotating, and creating holes within shapes. We also will go over using tools like the ruler and workplane so you can make your model just the right size. This is a two-part series; registration is required.

Plastic Bags to Plastifab **10/11 @ 5:30-6:30PM**

Used plastic grocery bags can be given new life as fused plastic fabric! Bring your own colorful plastic bags or use the supplies provided to collage together an artistic piece of fused plastic fabric. PlastiFab can be used as a sewing material to make things like pencil cases, reusable tote bags, sandwich wraps, and more!

Tech Help Drop-In

10/26 @ 10AM-12PM

Have a tech question? Join us for monthly Tech Help Drop-In sessions. Digital learning staff will help you answer technology-based questions & address concerns about laptops, tablets, & smartphones. Sessions are limited to 15 minutes.

 = Registration required.
