## Animate faces in Slides!

Make a picture "talk" in Google Slides! 1. Insert a portrait and draw a black box over the lower lip and jaw. 2. Copy & paste the image of the face onto a new slide so that it overlaps with the original. 3. Crop the top image so that it's slightly larger than the box. 4. Duplicate the slide. 5. Move the "jaw" box down to reveal the black box. 6. Duplicate both slides many times. 7. Add in your text!
