

5th Grade LA – Apr. 8

- **Good morning!**
- **Review: Persuasive Techniques**
- **Practice: Please finish your one-page advertisement today. Tape it to the board, with a notecard taped below it. Circulate and review each ad. Write on the notecard what specific advertising technique you think the author used, as well as some constructive feedback about their work.**
- **When Done: If you've reviewed all available ads, head to my blog and click on the link entitled, "Sample Debate (TV is a Bad Influence)". You'll need headphones. Watch the debate and take note of the rules and gestures they use. In your notebook, make a T-chart and make tally marks for each valid point you think each team makes.**
- **Homework: Finish your advertisement by next Monday, Apr. 15.**

5th Grade Math – Apr. 8

- **Good morning!**
- **Review: Measures of Deviation**
- **Practice: Survey the members of our class using your assigned statistical question. Use the roster to keep accurate records. Complete the statistics sheet when you're finished.**
- **When Done: Check and fix. Then finish your final Landmark Shark game.**
- **Homework: None**

3rd Grade LA – Apr. 8

- ⊗ **Good afternoon!**
- ⊗ **Review: Sequence**
- ⊗ **Practice: Finish up your sequencing activity. In order for the last story to make sense, let's talk about the vocabulary.**
- ⊗ **When Done: When you've got the last of the stories in place, instead of checking with me, split your group up. Each of you should find another individual to compare answers with. Discuss, don't argue, and return back to your original partner. Share the new perspectives you received and revise your order until your story makes sense. Then enjoy FreeRice until time is called.**
- ⊗ **Homework: Have a great week!**

4th Grade LA – Apr. 8

- **Good afternoon!**
- **Review: Code Decyphering**
- **Practice: Your codes should be done by now. Please take some time to circulate and trade your code with others. Place a tally mark in your notebook (by your answer keys) for each person who successfully decoded your message without assistance.**
- **When Done: Show me your results only after you've met with all available students. Then FreeRice!**
- **Homework: Have a great week!**
